

OPEN LETTER

September 18, 1962

TO: Senator Richard B. Russell, Chairman, Senate Armed Services Committee
Congressman Carl Vinson, Chairman, House Armed Services Committee

INDICTMENT FOR TREASON

The full record of your crimes of Treason is too long for this brief presentation. The mad military adventures of U.S. political scoundrels, designed to enrich the "War Lords" of the world, must necessarily be backed up by force. This your sedition has provided.

You have mobilized the full military potential of our youth, generation after generation to turn the United States into an armed camp. You have sent them to fight the battles of Wall Street and the Papacy all over the world - in World War I and II, the Korean War, and in hundreds of "brush fire" wars instigated by the arsonists of the Pentagon and the Central Intelligence Agency (Committee of International Assassins), and thus have planted white crosses all over the world, from "Flanders Fields" to Laos, and on every continent. You have betrayed the dead, whom you seduced with slogans of "liberty" and "democracy", and even while they were dying on the battlefield, scuttled "liberty" and "democracy" at home.

You were accessories to Truman's cosmic murder of Hiroshima and Nagasaki, when no military justification existed. You bankrupted our taxpayers to fight wars of profit for "Murder, Incorporated". You have conspired with congressional financial committees to find "ways and means" to swindle and pauperize our people to promote your crimes. You have been accessories to the "Godless", insane, wars of nerves, founded on international falsification and slander. ("Thou Shalt not lie!") You have committed political fornication with the Great Whore of the Vatican, to reduce our country to medieval ignorance, poverty, fear and corruption; and with international financial scoundrels and thieves who have absconded with our gold resources stored at Fort Knox. You were accessories to the treason of John F. Kennedy in overthrowing our "republican form of government" in his fraudulent election of 1960. You promoted his call-up of reserves over the fraudulent Berlin issue, in a propaganda campaign to strengthen the Jesuits and Wall Street.

You have seduced our military commanders who have, to a man (except for General Stillwell and Carlson) betrayed the men whom they led to their deaths. You have never looked behind you to note the destruction and desolation resulting from your seditious policies. YOU HAVE LIVED TOO LONG!

And now you commit another overt act against the Constitution by authorizing another call-up of reserves in a new drive against Cuba. Your justification of the Monroe Doctrine is a damnable lie, for President Monroe protected the revolutionists from Spain and the Roman Catholic "Holy Alliance". In waging war against Cuba you wage war against the people of all Latin America, most of them Roman Catholics.

You have been involved in political and military chicanery long enough to know that the 150,000 reservists could serve no military purpose relative to Cuba, any more than they did relative to Berlin. Military invasion of Cuba would be madness, as would invasion by Cuba of the United States. These reservists are not intended for any such purpose. They will, instead, be mobilized for use against our own people, should resistance develop against the Kennedy insanities. They are to be reinforced, according to Kennedy himself, by Cuban Roman Catholic "exiles" on U.S. Jesuits and the Pope. They, in turn, will be reinforced by the Hungarian "freedom fighter" assassins already dug in on our soil. These will become the spear-head for the knights of Columbus of which Kennedy, a member, will become a Field Marshal. Behind him will be the revived Hitlerian Roman Catholic armies of Germany, commanded by "revanchists" whom you have restored to power in Germany, who have made the United States their primary target for revenge. These will be aided by the Zionists, of whom, along with the Vatican, placed Kennedy in power, and have plundered Fort Knox of its gold.

WE, the "sovereign people" of the United States, have become your primary enemies.

I predict, and pray, that these mobilized reservists, joined by regular army forces and perhaps even by a general or two from the Pentagon (who have not become "turn-coats" against our Constitution, and who know what "Duty, Honor really means"), will march on Washington to destroy every enemy of our Constitution, beginning in the White House. Perhaps we may still find solutions through our Constitution and through true "Christianity", neither of which have been seriously attempted in the United States. I remind you that the penalty for TREASON is death!
